REPORT.

TO THE RIGHT HON.

LORD BALFOUR OF BURLEIGH, K.T.,

His Majesty's Secretary for Scotland.

GENERAL REGISTRY OFFICE OF BIRTHS, ETC.,
EDINBURGH, *24th March* 1903.

MY LORD,

I have now the honour to submit to you, in accordance with the requirements of the Scottish Registration Act (17 & 18 Vict. cap. 80), a General Abstract of the Births, Deaths, and Marriages registered in Scotland during the year 1902, drawn up in the usual form, with a view to its being laid before Parliament.

I have likewise the honour to submit to you, in accordance with Section 19 of the Vaccination Act (26 & 27 Vict. cap. 108), the Thirty-eighth Annual Report on Vaccination, which includes all the usual details relative to children whose Births were registered in Scotland during the year 1901.

I have the honour to be,

MY LORD,

Your most obedient Servant,

STAIR AGNEW,
Registrar-General.

REPORT TO THE REGISTRAR-GENERAL.

By R. J. Blair-Cunynghame, M.D., F.R.S.E.

Sir,

I beg herewith to submit the Report containing the usual details regarding the Births, Deaths, and Marriages registered during the year 1902 in the 1073 Registration Districts throughout Scotland. There is also submitted the Thirty-eighth Report on Vaccination, in which is contained all the available information regarding the administration of the Scottish Vaccination Act, particularly in relation to the vaccination of children born in Scotland during 1901.

Table I.—Population estimated to the middle of each year, with the Number of Births, Deaths, and Marriages registered in Scotland during each of the Years 1855 to 1902, and their Proportion to the Population; also the Excess of Births over Deaths, the Number of Illegitimate Births, and their Proportion to the Total Births.

Year	Estimated Population	Births.		Deaths.	Marriages.	Excess of Births over Deaths.	Percentage to Population.			Percent. of Illeg. to Total Births.
		Total.	Illegit.				Births.	Deaths.	Marriages.

a decrease is found in the case of the births and deaths, while the marriage-rate is almost the same as before. The birth-rate is the lowest recorded in these Reports.

The births exceed the deaths by 54,304.

BIRTHS.

132,250 births were registered in Scotland during the year, which is equivalent to a birth-rate of 2·92 per cent., or 292 for every ten thousand of the population as estimated. Of these births, 67,487 are of males, and 64,763 of females.

In Tables IV. and V. the births and birth-rate are stated for each of the five groups into which the registration districts are classified. In the Principal Town districts the births amount to 61,059, giving a rate of 3·06 per cent. of the estimated population; of these, 31,160 are males, and 29,899 females. In the Large Town districts the number is 18,252, and the rate 3·10 for every hundred of population; the males being 9347, and the females 8905. In the Small Town districts the total is 26,995, equal to a rate of 2·96 per cent. of the inhabitants; males 13,768, females 13,227. In the Mainland-Rural districts the births amount to 23,428, giving a rate of 2·54 per cent. of population; of the 23,428, 11,919 are males, and 11,509 females. In the Insular-Rural districts the number is 2516, representing a rate of 2·17 for every hundred persons—males 1293, and females 1223. These proportions show that the birth-rate is highest in the Large Town districts, followed in order by that in the Principal Town districts, Small Town districts, Mainland-Rural districts, and Insular-Rural districts.

Of the 132,250 births, 8202 were illegitimate, being in the proportion of 6·2 per cent. of the total. This rate is the lowest recorded in these Reports. The highest rate, 8·3 per cent., occurred in the Mainland-Rural districts, and the lowest, 5·3 per cent., in the Large Town districts. In the Small Town districts the rate was 5·4 per cent., and in the Principal Town and Insular-Rural districts 6·0 per cent.

Table VI. exhibits the relative frequency of illegitimacy in the various geographical divisions and in each of the counties of Scotland during the year. Among the former, the highest rates are found to be in the Southern

		Kincardine . .	8·0	Ayr . . .	5·2	Wigtown . .	12·2

Western, 5·1 per cent.; and the lowest in the West-Midland, 4·9 per cent. In the counties the rate varies from 13·0 per cent., the highest, in Banff, to 3·5 per cent., the lowest, in Selkirk. In six of the counties the rate is over 10 per cent., viz.:—Banff 13·0, Wigtown 12·2, Elgin 11·9, Dumfries 11·5, Aberdeen 10·8, and Kirkcudbright 10·3. The counties having the lowest rates are Renfrew, 3·9 per cent., Dumbarton 3·6, and Selkirk 3·5.

Of the total births registered during the year, 67,487 were of boys, and 64,763 of girls, so that there were born 104·2 of the former to every 100 of the latter. This proportion varies but slightly in the districts, the lowest being 103·6 to 100 in the Mainland-Rural districts, and the highest, 105·7 to 100, in the Insular-Rural districts.

Births were most numerous in April, when 405 were registered daily, followed by July with 379 daily, October with 376, May with 371, June with 368, September with 362, March with 356, December with 355, February with 354, January with 350, August with 343, and November with 327.

DEATHS.

77,946 deaths were registered in Scotland during the year, which number gives a rate of 1·72 per cent. of the estimated population, or 172 for every ten thousand persons. This rate is the lowest which has occurred since 1896.

The rate of mortality was highest in the Principal Town districts, 185 per ten thousand of population, and lowest in the Mainland-Rural, 155 per ten thousand. In the Large Town districts there were 174 deaths for every ten thousand inhabitants, in the Insular-Rural districts 170, and in the Small Town districts 159.

The average number of deaths was greatest in February, when 267 were registered daily; in April there were 254 daily, in March 243, in December 242, in January 233, in May 224, in June 206, in October 188, in November 187, in July 183, in September 174, and in August 166.

MARRIAGES.

During the year 1902, 31,878 marriages were recorded in Scotland, which is equivalent to a rate of 70 for every ten thousand of the population as estimated. The marriage-rate in the Principal Town districts was 87 for every ten thousand persons, in the Large Town districts 70, in the Small Town districts 62, in the Mainland-Rural districts 48, and in the Insular-Rural districts 37.

Marriages were registered in greatest frequency during the month of June, followed in order by December, January, July, September, April, November, August, March, October, February, and May.

EIGHT OF THE PRINCIPAL TOWNS OF SCOTLAND.

The following remarks are made with reference to events which occurred in the following Principal Towns of Scotland, viz.:—Glasgow, Edinburgh, Dundee, Aberdeen, Paisley, Leith, Greenock, and Perth, and the

information upon which these statements are based is compiled from returns furnished periodically by the Registrars thereof. As fully 36 per cent. of the whole population of Scotland is resident within these towns, it is believed that the conditions observed in them will give a fairly accurate indication of those prevailing in the neighbouring districts.

BIRTHS IN THESE EIGHT TOWNS.

During the year the births of 49,961 children were registered in these towns, which number represents a birth-rate of 297 for every ten thousand of population. The highest rate occurred in Glasgow, 319 for each ten thousand persons; and the lowest in Perth, 231 per ten thousand. The rates in the other towns were:—318 in Greenock, 305 in Aberdeen, 304 in Paisley, 302 in Leith, 280 in Dundee, and 251 in Edinburgh.

Of the total 49,961 births, 3281, or 6·6 per cent. of the whole, were illegitimate. In Dundee 8·4 per cent. of the births were of this nature; in Aberdeen, 7·8 per cent.; in Edinburgh, 7·6; in Glasgow, 6·4; in Perth, 5·0; in Paisley, 4·5; in Leith, 4·4; and in Greenock, 3·5 per cent.

The relative number of illegitimate births to the possible mothers in these towns is shown in Table VIII. The estimated numbers of possible mothers as given in that Table are based on the number of unmarried women and widows aged from 15 to 45 enumerated in the respective towns at the Census of 1901. The highest rate occurred in Aberdeen, where the proportion was 1·59 to every 100 of possible mothers; in Glasgow it was 1·41 per cent.; in Dundee, 1·35; in Leith, 1·06; in Edinburgh, 1·04; in Paisley, 0·87; in Greenock, 0·86; and in Perth, 0·67.

Of the 49,961 births registered, 25,489 were of males, and 24,472 of females. The proportion of boys to girls was therefore as 104·2 to 100.

DEATHS IN THESE EIGHT TOWNS.

The deaths of 31,886 persons were recorded in these towns during the year, being at the rate of 190 for every ten thousand of the population as estimated. Of these deaths, 16,268 were of males, and 15,618 of females. The highest rate of mortality occurred in Glasgow, where 200 in every ten thousand of the computed inhabitants died during the year; in Greenock, the corresponding rate was 198; in Paisley, 191; in Dundee, 190; in Perth, 181; in Aberdeen, 179; in Edinburgh, 178; and in Leith, 153. When these rates are compared with those for the previous year (Table IX.), it is found that the mortality for the present year is lower in Glasgow, Edinburgh, Dundee, Aberdeen, and Leith, and higher in Paisley, Greenock, and Perth. On a further comparison being made between the rates for the year under review, and the mean proportions for the decennium 1892-1901, it is seen that the death-rate for 1902 is below the mean in all these towns except Greenock, the rate for which is slightly above that for the ten years' period.

In Table X. a statement is given regarding the mortality of children under five years of age in these towns, in relation to the numbers living at that age, and also in proportion to the total deaths at all ages. The total number of deaths of children under five was 10,416, and the estimated

Leith . . .	78,605	2,374	3·02	9,783	104	4·4	1·06	1,206	1·53	522	0·66
Greenock . .	68,756	2,185	3·18	8,964	77	3·5	0·86	1,364	1·98	490	0·71
Perth . . .	33,262	767	2·31	5,708	38	5·0	0·67	603	1·81	290	0·87

population at the same age was 193,197; the death-rate was therefore 54 per thousand. In Glasgow the rate was 59 per thousand, in Greenock and in Dundee 56, in Paisley 54, in Aberdeen 48, in Edinburgh 46, in Perth 42, and in Leith 41. When the proportion of deaths under five years to the total deaths at all ages is calculated, it is found that 35·0 per cent. of the deaths in Glasgow were of children of this age; in Greenock, 34·5 per cent.; in Paisley, 33·7; in Leith, 33·3; in Aberdeen, 33·2; in Dundee, 33·0; in Edinburgh, 25·9; and in Perth, 23·5.

Tables XI. and XII. give the percentage of deaths from various diseases in these towns, the former Table with reference to the population, and the latter with reference to the total deaths from all causes. In the Eight Towns collectively the mortality was at the rate of 1·918 per cent. of the inhabitants as estimated. The death-rate for the year was highest in Glasgow, 2·037 per cent., and lowest in Leith, 1·538 per cent. Owing to a change made in the nomenclature of diseases, Tables XI. and XII. are in some points not quite similar to those in previous Reports, chiefly due to the fact that diseases which formerly constituted the Zymotic, Constitutional, and Developmental classes are now arranged under the heading General Diseases. The principal infective diseases—viz., Small-pox, Measles, Scarlet Fever, Influenza, Hooping-cough, Diphtheria, and Fevers—caused a mortality at the rate of 0·153 per cent. of the population, and accounted for 8·06 per cent. of the total deaths. The highest death-rate from these diseases occurred in Greenock, where 0·225 per cent. of the inhabitants succumbed thereto; in Paisley the rate was 0·221 per cent.; in Perth, 0·215; in Glasgow, 0·156; in Aberdeen, 0·146; in Edinburgh, 0·140; in Dundee, 0·124; and in Leith, 0·087. The

TABLE X.—Deaths of Children under Five Years of age in each of Eight of the Principal Towns of Scotland during the Year 1902.

Towns.	Estimated Number of Living Children under 5 years in 1902.	Deaths under 5 years of age.	Percentage of Deaths under 5 years.	Percentage of Deaths under 5 years to the Total Deaths.
Glasgow	92,120	5,439	5·90	35·0
Edinburgh	32,086	1,488	4·64	25·9
Dundee	18,163	1,015	5·59	33·0
Aberdeen	19,575	936	4·78	33·2
Paisley	9,747	523	5·37	33·7
Leith	9,761	402	4·12	33·3
Greenock	8,383	471	5·62	34·5
Perth	3,362	142	4·22	23·5

percentage of deaths from these diseases to the total mortality is 11·83 in Perth, 11·57 in Paisley, 11·32 in Greenock, 8·16 in Aberdeen, 7·89 in Edinburgh, 7·81 in Glasgow, 6·55 in Dundee, and 5·65 in Leith. The mortality from Diarrhœa and Epidemic Enteritis was at the rate of 0·029 in every hundred of the population, and constituted 1·52 per cent. of the total deaths.

In Glasgow, in every hundred deaths, 3·07 were due to Hooping Cough, 1·72 to Measles, 1·36 to Diarrhœa and Epidemic Enteritis, 0·75 to Fevers (0·68 Enteric, 0·06 Typhus), 0·72 to Scarlet Fever, 0·69 to Diphtheria, 0·58 to Influenza, and 0·28 to Smallpox.

In Edinburgh, in every hundred deaths, 2·15 were accounted for by Measles, 2·02 by Influenza, 1·83 by Hooping Cough, 1·08 by Diarrhœal diseases, 0·70 by Diphtheria, 0·63 by Fevers (0·61 Enteric, 0·02 Typhus), and 0·56 by Scarlet Fever.

In Dundee, in every hundred deaths, 3·19 were attributed to Diarrhœa, 2·64 to Measles, 1·86 to Hooping Cough, 0·75 to Influenza, 0·62 to Diphtheria, 0·36 to Fever (all Enteric), and 0·33 to Scarlet Fever.

In Aberdeen, in every hundred deaths, 4·60 resulted from Hooping Cough, 1·69 from Influenza and the same from Diarrhœa, 0·76 from

* Smallpox, Measles, Scarlet Fever, Influenza, Hooping Cough, Diphtheria, and Fevers.

Diphtheria, 0·65 from Measles, 0·32 from Scarlet Fever, and 0·14 from Fevers (0·11 Enteric, 0·03 Simple or Ill-defined).

In Paisley, in every hundred deaths, 3·56 were due to Measles, 2·71 to Hooping Cough, 2·07 to Influenza, 1·75 to Scarlet Fever, 1·49 to Diarrhœa, 1·22 to Fevers (0·84 Typhoid or Enteric, 0·26 Cerebro-spinal, 0·06 Typhus, and 0·06 Simple or Ill-defined), and 0·26 to Diphtheria.

In Leith, in every hundred deaths, 2·91 were caused by Hooping Cough, 1·58 by Influenza, 1·41 by Diarrhœa, 0·50 by Measles, 0·42 by Diphtheria, 0·17 by Fever (all Enteric), and 0·08 by Scarlet Fever.

In Greenock, in every hundred deaths, 4·29 were ascribed to Scarlet Fever, 2·59 to Measles, 1·78 to Diphtheria, 1·41 to Fever (all Enteric), 1·33 to Diarrhœa, 0·67 to Influenza, and 0·59 to Hooping Cough.

In Perth, in every hundred deaths, 3·83 were due to Measles, 3·00 to Hooping Cough, 2·17 to Diphtheria, 1·50 to Influenza, 1·00 to Diarrhœa, 0·67 to Scarlet Fever, 0·50 to Fever (all Enteric), and 0·17 to Smallpox.

In these Eight Towns taken together there were registered 861 deaths from Hooping Cough, constituting 2·73 per cent. of the total mortality, and giving a proportion of 5·2 in every ten thousand of the computed inhabitants. 468 of these deaths occurred in Glasgow, 128 in Aberdeen,

---

* Smallpox, Measles, Scarlet Fever, Influenza, Hooping Cough, Diphtheria, and Fevers.

and 105 in Edinburgh. Measles was the cause of 603 deaths, being at the rate of 1·91 per cent. of all the deaths, and of 3·6 for each ten thousand of the estimated population. Of these deaths 262 were in Glasgow, 123 in Edinburgh, 81 in Dundee, 55 in Paisley, 35 in Greenock, and 23 in Perth. Diarrhœa and Epidemic Enteritis accounted for 478 deaths, being in the ratio of 1·52 to every hundred of the total deaths, and of 2·9 to each ten thousand of population. 207 of these deaths were in Glasgow and 98 in Dundee. To Influenza 344 deaths were attributed, being at the rate of 1·09 per cent. of the whole mortality, and giving a death-rate of 2·1 per ten thousand persons. Of these deaths 116 took place in Edinburgh. Scarlet Fever caused 251 deaths, constituting 0·80 per cent. of all, and representing a rate of 1·5 in every ten thousand inhabitants. 110 of these deaths occurred in Glasgow and 58 in Greenock. From Diphtheria and Membranous Croup there resulted 232 deaths, being 0·74 per cent. of the total, and in the proportion of 1·4 to each ten thousand of population. The Fevers together caused 209 deaths, equal to 0·66 per cent. of all, and to a rate of 1·3 per ten thousand persons; of the 209, Enteric caused 191, Typhus 11, Cerebro-spinal 4 (all in Paisley), and Simple or Ill-defined 3. To Smallpox 44 deaths were due, of which 43 occurred in Glasgow and 1 in Perth.

Diseases usually of a Tuberculous nature caused 4126 deaths, being 13·08 per cent. of the total, and equal to a mortality rate of 24·8 in every ten thousand inhabitants. To Pulmonary Tuberculosis and Phthisis 2770 of these deaths were ascribed, giving a ratio of 8·78 to every hundred of the total mortality, and of 16·7 deaths to each ten thousand of population. The highest rates from these diseases occurred in Dundee, Greenock, and Glasgow. Tuberculous Meningitis was the ascribed cause of 547 deaths, Tuberculous Peritonitis of 208, Tabes Mesenterica of 191, and other forms of Tuberculosis of 410.

Rheumatic affections accounted for 208 deaths, of which 94 were returned as due to Rheumatic Fever, 35 to Rheumatism of the Heart, 56 to Chronic Rheumatism, and 23 to Rheumatic Arthritis or Rheumatic Gout. Malignant Tumours caused 1523 deaths, equivalent to 4·83 per cent. of the total, and to a rate of 9·2 per ten thousand of estimated population. 612 were classified as Carcinoma, 94 as Sarcoma, and of 817 the form was not specified. The deaths from these diseases were most marked in Edinburgh and Dundee, being at the rate of 12·0 and 11·7 per ten thousand inhabitants respectively.

To Syphilis 113 deaths were ascribed; to Puerperal Septicæmia and Puerperal Fever, 109; to Erysipelas, 121; and to Chronic Alcoholism and Delirium Trèmens, 118.

937 children died from Premature Birth, 72 from Atelectasis, 164 from other Congenital Defects, and 168 from Teething.

Diseases affecting the Nervous System caused 1971 deaths, being 6·25 per cent. of the total mortality, and representing a rate of 11·9 for every ten thousand of population. The apparent decrease in the fatality from these diseases, compared with that for previous years, is accounted for by the transference of Cerebral Hæmorrhage and Hemiplegia to Diseases of the Blood Vessels. Diseases of the Nervous System caused 7·48 per cent. of the deaths in Greenock, 7·43 in Paisley, 6·53 in Glasgow, 6·22 in Aberdeen, 6·17 in Perth, 5·51 in Dundee, 5·50 in Edinburgh, and 5·32 in Leith. The ratio of such deaths to every ten thousand inhabitants was 14·8 in Greenock, 14·2 in Paisley, 13·1 in Glasgow, 11·2 in Perth, 11·1 in Aberdeen, 10·5 in

Dundee, 9·8 in Edinburgh, and 8·2 in Leith. Of the 1971 deaths from diseases of the Nervous System, 704 were due to Inflammation of the Brain and 526 to Convulsions.

Diseases of the Organs of Circulation accounted for 4563 deaths, representing 14·46 per cent. of the gross mortality, and a rate of 27·5 in every ten thousand of estimated inhabitants. The tabulation of deaths from Cerebral Hæmorrhage and Hemiplegia under the heading of Diseases of the Blood Vessels accounts for the apparent increase in the mortality from diseases of the Circulatory Organs, compared with the numbers for previous years. The rate per ten thousand of population from these diseases was 32·0 in Greenock, 30·8 in Perth, 30·4 in Aberdeen, 29·6 in Dundee, 29·3 in Edinburgh, 27·9 in Leith, 27·3 in Paisley, and 25·0 in Glasgow. Of the 4563 deaths from diseases of the Circulatory Organs, 2721 were due to diseases of the Heart, and 1842 to diseases of the Blood Vessels.

Diseases affecting the Respiratory Organs proved fatal to 6808 persons, equal to a rate of 41·0 per ten thousand of population, and embracing 21·58 per cent. of all the deaths. In Glasgow 48·7 of each ten thousand inhabitants died from these diseases; in Dundee, 41·6; in Paisley, 40·0; in Greenock, 37·0; in Aberdeen, 32·9; in Perth, 31·1; in Edinburgh, 31·0; and in Leith, 30·4. Bronchitis caused 2765 deaths, accounting for 8·76 in every hundred of the total mortality, and representing a death-rate of 16·6 per ten thousand of population. Pneumonia in its various forms was the ascribed cause of 3366 deaths, or 10·67 per cent. of all, giving a mortality rate of 20·3 for each ten thousand persons. Pleurisy caused 165 deaths, and Croup 38.

Diseases of the Organs of Digestion caused 1985 deaths, being 6·29 per cent. of all, and representing a rate of 11·9 per ten thousand of population. Diseases of the Stomach accounted for 414, Enteritis and Gastro-enteritis for 506, Peritonitis for 234, and Diseases of the Liver for 259.

To Diseases of the Urinary System 916 deaths were attributed, the percentage to the total being 2·90, and the rate per ten thousand inhabitants 5·5. Acute Nephritis was the cause of 269, Bright's Disease of 455, and Diseases of the Bladder and Prostate of 129.

897 deaths were stated to have been due to Atrophy or Debility, 33 to Dropsy, and 1144 to Old Age. The cause of death was omitted in 339 cases, including 67 defined only as sudden.

The Violent deaths amounted to 1320, forming 4·18 per cent. of the total mortality, and being at the rate of 7·9 for every ten thousand of population. Of these, 205 were due to Burns and Scalds, 141 to Drowning, and 143 to Suffocation, 62 of which resulted from Overlaying. The Suicides numbered 68 in all, and were effected as follows:—26 by Cut Throat, 19 by Hanging, 8 by Drowning, 5 by Precipitation, 3 by Poisoning, 2 by Shooting, 1 each by Cutting an Artery, Wounding of Chest, and Inhaling Coal-gas, and 2 in a manner not stated.

113 persons died in these towns aged over 90 years, of whom 28 were males and 85 females. The oldest was a female aged 102. Three other females were over 100, and two over 99.

MARRIAGES IN THESE EIGHT TOWNS.

15,129 marriages were registered in these towns during the year, being in the proportion of 90 to every ten thousand of population. The rate in Edinburgh was 97 per ten thousand, in Glasgow and in Aberdeen 94, in Perth 87, in Dundee 82, in Paisley 78, in Greenock 71, and in Leith 66.

WEATHER AND ITS INFLUENCE ON MORTALITY.

The following remarks on the weather of the year are extracted from the Notes made by Dr. Buchan, under the Council of the Scottish Meteorological Society, which appear in the Registrar-General's Monthly Reports :—

January was characterised by a high mean barometric pressure, with a

high monthly range; a mean temperature slightly above the average, with a mean daily range also greater than the average; a rather low mean humidity; a mean rainfall much under the average, falling on the average number of days; a very large excess of westerly winds, blowing with a force much above the average.

February was characterised by a mean barometric pressure about the average, with a fairly high monthly range; a mean temperature greatly below the average, with a mean daily range slightly below the average; an average mean humidity; a mean rainfall very greatly under the average, falling on three days less than the average number; an excess of easterly winds, with a force much below the average.

March was characterised by a mean barometric pressure considerably below the average, with a low monthly range; a mean temperature decidedly above the average, with a mean daily range equal to the average; a slightly low mean humidity; a mean rainfall greatly under the average, but falling on five days more than the average number; a marked deficiency of easterly winds and a notable excess of south-westerly winds, with a mean force considerably above the average.

April was characterised by a mean barometric pressure slightly above the average, with a low monthly range; an average mean temperature, with a mean daily range half a degree above the average; a low mean humidity; a mean rainfall greatly under the average, but falling on the average number of days; a two days' excess of south-easterly winds, with an average mean force.

May was characterised by an average mean barometric pressure, with a slightly high monthly range; an exceedingly low mean temperature, with a rather low mean daily range; an average mean humidity; a mean rainfall slightly above the average, and falling on an unusually large number of days; a six days' excess of winds from between N.W. and N.E., with a high mean force.

TABLE XV.—Showing the connection between certain Atmospheric Phenomena, especially Temperature, and the Deaths from certain Diseases and Classes of Diseases in Eight of the Principal Towns of Scotland, during each Month of the Year 1902.

June was characterised by a mean barometric pressure almost equal to the average, with an unusually low monthly range; an exceedingly low mean temperature, with a rather low mean daily range; a high mean humidity; a low mean rainfall, falling on rather less than the usual number of days; a nine days' excess of winds from an easterly quarter, with a moderate mean force.

July was characterised by a mean barometric pressure somewhat above the average, with a monthly range a little above the average; an exceedingly low mean temperature, with a slightly low mean daily range; a mean humidity slightly above the average; a mean rainfall nearly equal to the average, and falling on the average number of days; a three days' excess of fairly strong winds from N. and N.W.

August was characterised by a mean barometric pressure slightly above the average, with a remarkably low monthly range; a very low mean temperature, with a mean daily range about the average; a mean humidity slightly above the average; a mean rainfall considerably below the average, and falling on two days less than the average number; a three days' excess of moderate winds from an easterly quarter.

September was characterised by a mean barometric pressure considerably above the average, with a rather high monthly range; an average mean temperature, with a mean daily range slightly below the normal; a mean humidity about the average; a mean rainfall greatly below the average, and falling on one day less than the average number; a four days' excess of moderate winds from an easterly quarter.

October was characterised by a mean barometric pressure considerably above the average, with a high monthly range; a mean temperature a little above the normal, with a slightly high mean daily range; a mean rainfall greatly below the average, but falling on one day more than the average number; a three days' excess of fairly strong winds from the N.E.

November was characterised by a slightly low mean barometric pressure, with a monthly range a little below the average; a very high mean temperature, with a slightly low mean daily range; a low mean rainfall, but falling on two days more than the average number; a remarkably low humidity, associated with an 11 days' excess of winds of average strength from E. and S.E.

December was characterised by a mean barometric pressure considerably above the average, with an unusually high monthly range; a mean temperature somewhat above the normal, with a mean daily range about the average; a mean rainfall slightly above the average, but falling on one day less that the average number; very strong winds, winds from a northerly quarter being notably deficient.

Tables XIII. and XIV. furnish some information regarding the atmospheric conditions which prevailed during each month of the year 1902, with the accompanying monthly mortality among the inhabitants of Scotland. The mean temperature and mean monthly mortality for the ten years, 1891-1900, are given in Table XIII., and may be accepted as convenient standards of comparison. The mean temperature for the year under

TABLE XVII.—Monthly Deaths at Four Periods of Life in Eight of the Principal Towns of Scotland during the Year 1902, and Proportion at each Age in every Hundred Deaths per Month.

December	1,074	195	997	767	3,033	1,118
YEAR	10,624	2,379	11,316	8,235	32,554	12,000

review is a little under that for the ten years' period. The mean temperature of the summer months, June, July, and August, is in each case considerably below the average. The highest mortality occurred during the months of March, April, and December; the lowest during August and September.

Table XV. shows the connection between certain atmospheric phenomena and the death-rate from some diseases and classes of disease in eight of the principal towns of Scotland. Deaths occurred with greatest frequency during the months of February, March, and April, and with the least during July, August, and September. From Smallpox 44 deaths were registered during the year, there being 1 in January, 20 in February, 15 in March, 7 in April, and 1 in May. Measles appeared with greatest frequency during January, and was more fatal during the earlier half than during the latter half of the year. Scarlet Fever was most in evidence during October and December. Influenza attained its greatest rate of mortality in March, and was also prominent in April and December. Hooping Cough was most fatal in December, and also very prevalent during the months of March, April, and May; the number of deaths therefrom decreased considerably during the autumnal months. Diphtheria was most in evidence during the first four and last three months of the year. Deaths from Fever were registered in greatest numbers during February, after which come December and September.

Generally the months of July, August, September, and October show a heavy mortality from the Diarrhœal diseases, but, in consequence of the low summer temperatures which prevailed, these diseases did not assume their usual prominence during 1902. The number of deaths from Diarrhœa in October is slightly above that for any other month.

Phthisis as a cause of death is at its maximum during the months of March, April, May, and June, and at its minimum in August, September, October, and November.

Diseases affecting the Respiratory Organs, being easily affected by climatic conditions, occurred in largest numbers in the early and late months of the year, and were at their minimum during the warmer months of July, August, and September. Deaths from Diseases of the Circulatory Organs were most frequent during January, February, March, April, and December. Diseases of the Brain were most fatal during March, April, and December. Deaths assigned to Old Age were registered in greatest numbers during the first five months of the year.

Tables XVII. and XVIII. are so arranged as to indicate the relative monthly mortality at different ages among the inhabitants in eight of the principal towns. With children (0-5 years) the heaviest mortality occurred during the first four and last three months of the year, the lightest during July, August, and September.

Among adolescents (5 to 20 years) the deaths were most numerous during the months of February and March, and least so during November.

Adults (20-60) died in greatest numbers during the first four months of the year, and in least numbers in the months from July to November.

December and the first four months of the year proved most fatal to old people.

The general mortality among the total population of these towns was heaviest during February, and decreased in each month as follows:—April, March, December, January, May, June, October, November, July, September, and August.

THIRTY-EIGHTH ANNUAL REPORT

ON THE

VACCINATION OF CHILDREN

BORN IN SCOTLAND DURING 1901.

The Vaccination Returns for the year 1901 show that of the 132,280 children whose births were recorded in Scotland during that year, 110,664 were successfully vaccinated, being at the rate of 83·659 per cent. Certificates of postponement were granted in 2834 cases, being 2·142 per cent. of

10 Years.	Percentage	84·799	2·107	0·372	0·001	0·229	9·932	2·560	100·000
1901	Percentage	83·659	2·142	0·754	0·001	0·375	10·157	2·912	100·000

the total births; 997 children, or 0·754 per cent., were certified as constitutionally insusceptible of vaccination; and 496, or 0·375 per cent., as insusceptible from having been previously vaccinated, but by persons not qualified to grant certificates to that effect. One child was certified as insusceptible from having already had Smallpox. 13,436, or 10·157 of the children born, died before vaccination; and 3852, or 2·912 per cent., were removed from the district in which they were born, or from some other cause were unaccounted for. When these percentages are compared with the averages for the ten years immediately preceding, it is found that the percentage of children successfully vaccinated is below the average, and in the other cases the rates are above the mean of the ten years' period. The number of children constitutionally insusceptible is more than double the average.

In Table XX. the proportions are given to the total number of living children, those who died before vaccination being deducted. This Table shows that of the 118,844 children alive at the age of six months 110,664 were successfully vaccinated, being at the rate of 93·117 per cent.; in 2834 cases, or 2·385 per cent., vaccination was temporarily postponed under medical authority; 997 children, or 0·839 per cent., were certified to be constitutionally insusceptible of the vaccine disease; 496, or 0·417 per cent., were insusceptible from having been previously successfully vaccinated; and 3852 of the children, or 3·241 per cent., were removed from the place of birth and lost trace of, or from some other cause were not accounted for.

Table XXI. shows the number of deaths from Smallpox which occurred in Scotland during each year from 1855 to 1900, the numbers for 1901 and 1902 being those registered in eight of the Principal Towns only.

TABLE XX.—Vaccinations in Scotland, 1891–1901, deducting from the Births those who died before they could be Vaccinated, and giving the Proportion of the Vaccinated to the surviving Births of each year.

Years.		Successfully Vaccinated.	Vaccination Postponed.	Insusceptible of Vaccination.			Removed from District before Vaccination, or otherwise unaccounted for.	TOTAL LIVING.

N.B.—Districts containing Parliamentary and Royal Burghs are printed in capitals, thus—EDINBURGH. Districts containing Police Burghs or Towns of 2000 Inhabitants and upwards are printed in small capitals, thus—CARLUKE. An asterisk "*" is prefixed to those Districts which have different names from the Parishes in which they are situated, or which comprise more, or parts of more than one Parish. A dagger "†" is prefixed to those Districts which consist of only a part of the Civil Parish of the same name.

The component parts of these Districts will be found on page 56.

APPENDIX.

VACCINATION, 1901.

EXTRACTS FROM THE REGISTRARS' NOTES RELATIVE TO THE WORKING OF THE VACCINATION ACT.

II. NORTH-WESTERN DIVISION.

6. INVERNESS.

Mainland.

92*b*. CANNICH.—In the isolated parts of the district the parents combined in obtaining the services of a medical practitioner to fulfil the provisions of the Vaccination Act.

Insular.

110 (1). DUIRINISH.—Vaccination was delayed owing to the prevalence of Hooping Cough during the autumn.

111 (1). NORTH HARRIS.—The prevalence of "Fever" in the district accounts for Vaccination being in the unsatisfactory state shown in the return.

113. NORTH UIST.—Vaccination has been hindered by the prevalence of Scarlet Fever and Hooping Cough.

III. NORTH-EASTERN DIVISION.

8. ELGIN (OR MORAY).

130. DRAINIE.—Measles and Hooping Cough prevalent, causing a number of cases of postponement.

131 (1). BURGHEAD.—Hooping Cough and Measles prevalent for the last six months.

131 (2). DUFFUS.—The large number of cases of postponement is due to the prevalence of Hooping Cough.

9. BANFF.

149*a*. BOYNDIE.—Vaccination well attended to.

159. KEITH.—A few parents are careless in regard to forwarding the Vaccination Schedule, but they always attend to the matter on being reminded by the Registrar.

10. ABERDEEN.

168 (2). ST. MACHAR.—Of the forty-four cases entered in column 7, twenty-five were postponed to dates prior to 31st December 1902, fourteen are reported as having left the district, and five are under consideration of the Parish Council.

183 (1). BRAEMAR.—During the prevalence of Small-pox in the district, free Vaccination was granted by the County Council, and the four cases returned as insusceptible had been previously vaccinated under these circumstances.

V. WEST-MIDLAND DIVISION.

19. ARGYLL.

Insular.

537. GIGHA.—The case entered in column 7 refers to a child which has been vaccinated, but owing to the removal of the doctor the certificate has not yet been received.

VI. SOUTH-WESTERN DIVISION.

23. LANARK.

644 (13). TRADESTON.—One prosecution during the year for neglect of Vaccination.

VII. SOUTH-EASTERN DIVISION.

24. LINLITHGOW.

662 (2). ARMADALE.—One conviction during the year for non-compliance with the provisions of the Vaccination Act.

673 (1). WHITBURN.—One prosecution for failing to have Vaccination performed.

25. EDINBURGH.

685 (4). ST. GILES.—One defaulter fined.

686. FALA AND SOUTRA.—The Registrar has very rarely to report to the Parish Council regarding defaulters, a notice to the parents who have failed to transmit the necessary certificate being generally successful.

27. BERWICK.

742. GORDON.—The child entered as unaccounted for is stated to have been vaccinated, but the doctor left for West Africa without signing the certificate.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING TABLES BY AN ASTERISK (*).

No.	Districts.	Component Parts (Parishes).
13	Birsay	Part of Harray and Birsay.
14	Deerness	Part of St Andrews and Deerness.
18	Harray	Part of Harray and Birsay.
22	North Ronaldshay	Part of Cross and Burness.
25	St Andrews	Part of St Andrews and Deerness.
26	Sanday	Lady, and part of Cross and Burness.
37*b*	Keiss	Parts of Canisbay and Wick.
58	Applecross	(1) Part of Applecross; (2) Remainder of Applecross and part of Gairloch.
59*b*	Carnoch	Parts of Contin and Urray.
86*b*	Carloway	Parts of Barvas and Uig.
87	Lochs	Lochs, and part of Uig.
92*b*	Cannich	Parts of Kilmorack and Kiltarlity.
112	Kilmuir	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
135	Elgin	Elgin, and parts of New Spynie, and St Andrews-Lhanbryde.
152	Enzie	Parts of Bellie and Rathven.
155*b*	Glenrinnes	Parts of Aberlour and Mortlach.
167	Seafield	Parts of Cullen and Rathven.
171*b*	Ardallie	Parts of Cruden, Ellon, Longside, and Old Deer.
210*b*	Kinninmonth	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar	Logie Coldstone, and part of Glenmuick.
222*b*	Millbrex	Parts of Fyvie and Monquhitter.
227*b*	New Pitsligo	Parts of Aberdour, New Deer, Strichen, and Tyrie.
231	Peterculter	(1) Parts of Aberdeen and Peterculter; (2) Remainder of Peterculter.
237*b*	Savoch	Parts of Ellon, New Deer, Old Deer, and Tarves.
249*b*	Ythan Wells	Parts of Auchterless and Forgue.
266	Nigg	Nigg, and part of Aberdeen.
282	Dundee	Dundee Combination, and part of Mains and Strathmartine.
294*b*	Kilry	Parts of Glenisla and Lintrathen.
324	Aberfeldy	Parts of Dull, Kenmore, and Logierait.
330	Auchtergaven	Parts of Auchtergaven and Logiealmond.
331	Balquhidder	Balquhidder, and part of Comrie.
344	Dowally	Part of Dunkeld and Dowally.
349	Dunkeld	Part of Dunkeld and Dowally.
355*b*	Foss	Parts of Blair-Athol and Dull.
361	Killin	Parts of Kenmore and Killin.
375	Logiealmond	Parts of Logiealmond, Little Dunkeld, and Methven.
379	Meigle	Meigle, and part of Coupar-Angus.
386*b*	Persie	Parts of Alyth, Blairgowrie, and Kirkmichael.
387	Perth	Perth, and part of Kinnoull.
393*b*	Stanley	Parts of Auchtergaven, Kinclaven, and Redgorton.
394*b*	Strathfillan	Part of Killin.
394*c*	Tenandry	Parts of Blair-Athol and Moulin.
402	Anstruther-Easter	Anstruther-Easter, and part of Kilrenny.
417	Crail	Part of Crail and May Island.
423	Dunbog	Dunbog, and part of Flisk.
425	Dunino	Dunino, and part of Crail.
442	Kirkcaldy and Abbotshall	Part of Kirkcaldy and Dysart.
457*b*	Thornton	Parts of Kirkcaldy and Dysart and of Markinch.
488	St Ninians	Parts of St Ninians and Stirling.
490	Stirling	Parts of St Ninians and Stirling.
496	Dumbarton	Dumbarton, and part of Cardross.
504	Ardchattan	Part of Ardchattan and Muckairn.
505	Ardnamurchan	(1) Parts of Ardnamurchan and of Arisaig and Moidart.
506	Ballachulish, etc.	Parts of Kilmallie and Ardgour.
509	Cumlodden and Minard	Parts of Glassary and Inveraray.
515	Kilbrandon and Kilchattan	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan, etc.	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishail; (2) Remainder of Kilchrenan and Dalavich.
520	Kilmallie	Parts of Kilmallie and Ardgour.
525	Lismore	Lismore and Appin, and part of Ardgour.
526	Lochgilphead	Parts of Glassary and South Knapdale.
529	Muckairn	Parts of Ardchattan and Muckairn, and Glenorchy and Inishail.
535	Tarbert	Parts of Kilcalmonell, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow)	Part of Kilarrow and Kilmeny.
543	Kilmeny	Part of Kilarrow and Kilmeny.
545	Kinlochspelvie	Part of Pennygown and Torosay.
547	Portnahaven	Part of Kilchoman.
548	Salen	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
549	Tobermory	Part of Kilninian and Kilmore.
550	Torosay	Part of Pennygown and Torosay.
556	Lochranza	Parts of Kilbride and Kilmory.
559*b*	Bridge-of-Weir	Parts of Houston and Killellan, and Kilbarchan.
572	Neilston	(1) Part of Neilston; (2) Remainder of Neilston, and part of Paisley.
576	Ardrossan	(1) Parts of Ardrossan and West Kilbride; (2) Remainder of Ardrossan.
584*b*	Crosshill	Parts of Kirkmichael, Kirkoswald, and Maybole.
595	Irvine	Irvine, and part of Dundonald.
610*b*	Patna	Parts of Dalmellington, Dalrymple, Kirkmichael, and Straiton
622	Barony	Part of Glasgow.
626*b*	Calderhead	Parts of Cambusnethan and Shotts.
644	Glasgow	Parts of Glasgow and Govan Combination.

CONSTITUTION OF THE DISTRICTS—*continued.*

No.	Districts.	Component Parts (Parishes).
685	Edinburgh	City Parish of Edinburgh, and parts of Duddingston and Liberton.
695*b*	New Craighall	Parts of Inveresk and Liberton.
698*b*	Stobhill	Parts of Borthwick, Cockpen, and Newbattle.
774*a*	Caddonfoot	Caddonfoot, and part of Innerleithen.
787*b*	Edgerston	Parts of Jedburgh and Southdean.
813*b*	Brydekirk	Parts of Annan, Cummertrees, and Hoddom.
830	Holywood	Holywood, and part of Terregles.
853*b*	Wanlockhead	Part of Sanquhar.
857*b*	Bargrennan	Parts of Minnigaff and Penninghame.
862	Corsockbridge	Parts of Balmaclellan, Kirkpatrick-Durham, and Parton.
864	Dalbeattie	Part of Urr.
899	Stranraer	Stranraer, and parts of Inch and Leswalt.

LIST of REGISTRATION DISTRICTS which include BURGHS, or TOWNS of 2000 Inhabitants and upwards, *or parts thereof*, bearing a different name from the District in which they are situated.

No.	Registration Districts.	Burghs.	Towns.
43	Wick	*Pulteneytown.

Crawford, . 635
Crawfordjohn, 636
Creich (Fife), 418

* The actual number of Districts is 1073—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 6 and 14 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place *compound* names in the order in which they are pronounced.

Crichton, . 681
Criech (Sutherland), . 46
Crieff, . 342
Crimond, . 184
Cromarty, . 16
